The application has been amended as follows:

In claim 38 line 6, --to- has been inserted after "outwardly".

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to show or teach applicant's claimed method of simulating bicycling riding on a stationary exercise bicycle, the stationary exercise bicycle comprising a frame having front and rear sockets, a pedal assembly, an adjustable seat adjustable in the fore and aft directions; a flywheel coupled to the pedal assembly with a chain and forming a dual chain tension device*, a handlebar having multiple gripping positions; the method comprising adjusting the height and fore and aft position of the seat and riding the stationary exercise bicycle in multiple positions to simulate various riding conditions including a standing position wherein the rider's center of gravity is over or in front of the pedal assembly, and a sitting position wherein the rider's center of gravity is behind the pedal assembly, wherein the dual chain tension device facilitates a smooth transition between the sitting and standing positions; and in claim 35 wherein the frame comprises the two V-shaped sections as claimed; and in claim 38 wherein the handle bar includes a lateral bar and at least one prong which extends forwardly and at least one inwardly located handle.

* See applicant's remarks on pages 11-12 with respect to the dual chain tension device which is considered equivalent a direct drive type device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
